

Test doing multi-part figure with subcaption package

author's name

Let's include two figures.

(a) HELP!

(b)

Figure 1 (a) Polymerization depth of resins with different h_a vs. normalized layer exposure time. (b) Polymerization depth of the same resin with different normalized dose, and one same dose for a different resin.

some text. some more text. 1a

And now we'll reference them as Fig. 1a and Fig. 1b.
